LLC Technology Update 2014

- **70” Sharp Touch-Screen Display** in Ettinger 104 has been updated with new map applications:

  Google Maps- a Chrome Browser application allows one to access virtual tours and street views around the world.

  AirPano 360° Aerial Panorama: allows one to enjoy panoramic 360° tours from locations all over the world.

- Language Learning Center has been equipped with **new PCs** with Windows 7 Operating System that replaces Windows XP as well as **new headsets** (including headphones and microphones).

- New **digital camera** has been acquired for the Language Learning Center.

- **Poster Gallery** Update: LLC Posters featuring *International Drama by Muhlenberg Theater* are now **QR-coded**. If interested one may access more information about the play and author through a mobile device.

• **Departmental Homepage:** *Featured News* section has been added to highlight important student and faculty events in the department. [http://muhlenberg.edu/main/academics/llc/](http://muhlenberg.edu/main/academics/llc/)

• **Russian Studies Homepage:** *Featured News* and *Alumni Profiles* sections have been added to highlight important student and faculty events and Russian Studies Alumni accomplishments, respectively. [http://muhlenberg.edu/main/academics/llc/alumni/Featured.html](http://muhlenberg.edu/main/academics/llc/alumni/Featured.html)

• **Hybrid Learning/Flipped Classroom:** Dr. Luba Iskold and Farid Khan researched ways of designing foreign language instruction in a Blended and/or Flipped format. They used the findings from their research to design syllabi for Guided Self-Study of Turkish, as well as Elementary and Intermediate Russian courses.

• **Online Literary Journal, Kalliope,** has been updated with new student publications. [http://muhlenberg.edu/main/academics/llc/Kalliope/KalliopeHome.html](http://muhlenberg.edu/main/academics/llc/Kalliope/KalliopeHome.html)

• **VoiceThread:** Dr. Luba Iskold worked on a collaborative project with Dr. Tetyana Reichert of the University of Waterloo, Canada using a cloud application VoiceThread that allowed students from both institutions to participate in online discussions using video, audio, images and text.
