I. Alcohol and Other Drug Policies

Student Alcohol Policy

See: Appendix A

Members of the Muhlenberg community are expected to abide by all federal, state and local laws, including those governing alcohol consumption and distribution. Under Pennsylvania law, it is illegal for anyone under the age of 21 to purchase alcohol or to possess alcohol in a public space. It is also illegal for anyone to furnish alcohol to an individual under the age of 21.

Students found in violation of the Muhlenberg College Student Alcohol Policy, Pennsylvania Laws, and/or city ordinances will be subject to disciplinary action at the discretion of the Dean of the Students Office.

The Student Alcohol Policy, attached, contains information regarding the following:

- Alcohol Policy Violations
- Regulations Regarding Personal Alcohol Consumption
- Regulations Regarding Social Events with Alcohol in College-Owned Housing
- Regulations Regarding Events with Alcohol Occurring Off-Campus

The Muhlenberg Recognized Student Organization Policies

See: Appendix B

The Recognized Student Organization(RSO) Policies and Procedures Manual is designed to familiarize an organization's leadership with the policies related to registered student organizations, thereby helping the organization to be both compliant and successful at Muhlenberg College.

The RSO Policies and Procedures Manual, attached, contains the following information related to alcohol:

- ***RSO Policy Regarding Events with Alcohol*** - 2021-2022 Student Organization Handbook pgs 15-18
- ***Off- Campus Events with Alcohol***- 2021- 2022 Student Organization Handbook pg 18

Student Drug Use and Controlled Substance Policy

See: Appendix C

Muhlenberg College recognizes that the use of illicit drugs is a serious problem on college campuses. When a student uses illicit drugs, the College makes every effort through education and referrals to assist that person to gain the help that they might need to live a life free of drug dependencies. Muhlenberg recognizes that the use of illicit drugs can seriously affect an individual's health, personal relationships and their ability to function in a competitive academic environment. The

College cannot tolerate behavior which is harmful to the individual; infringes upon the rights of others; or which the College deems detrimental to the welfare of an academic community. Consistent with its concern for the welfare of its students, moreover, the College will not tolerate the illegal distribution of drugs on campus. When the College becomes aware that students are using or distributing illegal drugs, the College reserves the right to contact those local, state and federal officials charged with enforcing state and federal drug laws.

Drug-Free Workplace Policy

See: Appendix D

The Muhlenberg College Drug-Free Workplace Policy Statement (“Policy”) addresses violations by College faculty and staff.

The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited at Muhlenberg College. Any employee or student violating this rule will experience disciplinary action. The College reserves the right to contact both state and federal offices charged with enforcing state and federal laws. Off-the-job illegal drug use which could adversely affect an employee’s job performance or could jeopardize the safety of others may result in disciplinary action, up to and including termination of employment.

Employees undergoing prescribed medical treatment with a legal drug that may impair job performance should report this treatment to the Vice President of Human Resources. In appropriate cases, certain job accommodations may be necessary for the safety of the employee, students, the public and fellow employees. Failure to disclose such treatment where it may create a direct threat of harm may result in disciplinary action up to and including termination of employment. The use or possession of alcohol during the work day and reporting to work under the influence of alcohol are also violations of Muhlenberg College’s policy.

The College offers an Employee Assistance Program through an external vendor. Additionally, the Director of Counseling/Substance Abuse Professional and the Vice President of Human Resources are prepared to confidentially handle referrals to appropriate programs for employees who seek assistance with drug and alcohol counseling and rehabilitation. Further, the health insurance plan offered by the College to full-time employees provides for the treatment of drug abuse in a participating substance abuse treatment facility.

II. Sanctions

Potential Employee Sanctions

At the College’s discretion, College employees found in violation of Drug-Free Workplace Policy Statement and/or other related College policies may be required to participate in counseling, drug abuse assistance or rehabilitation and/or may experience disciplinary action up to and including termination of employment.

As a condition of employment, employees convicted or who have pleaded guilty or nolo contendere (no contest) under a criminal drug statute for conduct in the workplace must report such occurrences to the Vice President of Human Resources no later than five days after the occurrence.

Potential Student Sanctions

The Student Code of Conduct (“Code”) outlines the rights, responsibilities and expectations for all student members of the Muhlenberg College community. The College’s disciplinary processes emphasize education by focusing on the growth and development of the individual student, encouraging self-discipline, and fostering a sense of respect for the rights of others. The College also has an obligation to maintain socially and educationally responsible behavior among its members. To this end, the disciplinary process is designed to redirect the behavior of a student into acceptable patterns and to protect the College community while helping each student clarify and solidify individual values.

Student Disciplinary Sanctions for Violations of the Standards of Conduct

The imposition of any of the below sanctions shall be subject to mitigating factors such as the present demeanor and past disciplinary record of the respondent, as well as the nature of the offense and the severity of any damage, injury, or harm resulting from the offense.

Disciplinary Warning- Disciplinary warning is a written notice given to a student responsible for a violation of this Code to draw attention to the fact that the student’s behavior was not in accordance with College policy and that should a breach of College policy occur again or if the student is found responsible for any future offenses, the student may expect to receive more severe disciplinary action.

Disciplinary Probation- Disciplinary probation is a status that notifies the student that their behavior violated the Student Code of Conduct in a serious way. Probationary status may result in, but is not limited to, a student's inability to participate in certain leadership positions on campus, extracurricular or sporting activities, study abroad opportunities, and/or live in MILE and/or off-campus housing. Any other specific restrictions will be outlined by the Hearing Officer or Hearing Board Panel. This status implies that further violations of the Disciplinary Probation terms or the Student Code of Conduct may result in more severe sanctioning, including suspension or expulsion from the College.

Educational Sanction- The student may be required to participate in educational experiences such as a program, workshop, online tutorial, or individual meeting.

Parental Conference- Where appropriate, the parent(s) and/or guardian(s) will be asked to have a conference (in person or over the phone) with the student and an appropriate College administrative manager to discuss the incident.

Parental Notification- Where appropriate, if permitted under the federal Family Educational Rights and Privacy Act, a copy of the outcome letter will be sent to the address on file for the student's parent(s) and/or guardian(s).

Other Sanctions- Other sanctions may be imposed as appropriate to achieve the goals of sanctioning mentioned above and to respect the individuality of each case and each student. These may include, but are not limited to, reflection papers, research papers, service projects, work service hours, fire safety fines, referral, program attendance, meetings, and program creation.

Medical Amnesty-

As a part of medical amnesty sanctions, students are often asked to complete the eCheckuptogo assessment with follow up by the Director of Student Support. This assessment assists students in observing their alcohol and other drug usage by helping them to identify quantity and frequency of use, amount consumed, normative comparisons, physical health information, amount and percent of income spent, negative consequences feedback, and explanation, advice, and local referral information.

- Students must also watch a video regarding alcohol and the brain. After reviewing the video, students must respond to reflection questions that are then followed up with in a meeting with the Director of Student Support.
- Parents/families of students who are transported and are under the legal drinking age are notified.

III. Alcohol and Drug Data

The following data was obtained from the Office of Student Conduct, Human Resources, and the Department of Campus Safety and Police. Referral values reflect referrals for both institutional policy violations and law violations. It is the responsibility of the Office of Student Conduct and Human Resources to assess potential violations of ~~the Student Code of Conduct~~ to determine appropriate sanctions.

Combined Academic Years: 2022-2023 & 2023-2024

Incident Type	Students 2022- 2023		Students 2023-2024		Employee 2022-2023		Employee 2023- 2024

Other Drugs	13	0	11	0	0	0	0	0
AOD Medical Transports	16		26		0		0	
Fatalities	0		0		0		0	

In discussing the number of incidents which occurred during the review period, the committee recognized the following:

- The committee compared this Biennial Review with the previous academic years of review: 2020-2022.
 - There has been continued decrease in the amount of alcohol violations referred to the Office of Student Conduct.
 - There has been continued decrease in the amount of other drug violations referred to the Office of Student Conduct.
 - There has been an increased in the amount of AOD Medical Transports. The committee discussed that this may be a correlation with increased advertisement of the Colleges Medical Amnesty Policy
- Discussed programming for student groups related to the consumption and hosting

Student Sanctions Data

Individuals referred to the Office of Student Conduct for Alcohol and Other Drug policy violations during the 2022-2023 and 2023-2024 academic years and subsequently found responsible, were assigned the following sanctions:

Sanction	# Assigned 2022-2023 AY	# Assigned 2023-2024 AY
Disciplinary Warning (Individual)	19	14
Disciplinary Warning (Student Group)	0	1
Disciplinary Probation (Individual)	14	8
Disciplinary Probation (Student Group)	3	7
Social Probation	0	1
Medical Amnesty	- *	24

Educational Session (Non Substance Related)	10	15
Online Alcohol and Other Drug Evaluation (In House)	34	24
Housing Removal	1	0

Above Chart Rationale:

* “Medical amnesty”. During the 2023-2024 academic year, the Office of Student Conduct changed how medical amnesty was logged in our conduct software so that a more representative record is captured of how many times amnesty was granted. As this wasn’t the way it was recorded in 2022-2023, a number is not listed above in the 2022-2023 academic year because it doesn’t provide a correct snapshot of how many students received it. More accurate data will be reflected in the next review as we have made how we capture the data in our software permanent.

VI. Analysis

Throughout the review period, the committee discussed the following regarding strengths and weaknesses of alcohol and other drug policies, education efforts, and resources:

A. Strengths

- Substance Free Housing was implemented for the 2024-2025 Academic Year
- Offer and conduct employee training
- Employee Assistance Program available for all employees
- Sick leave program available for time away in support of family members
- As a result of the identified below weakness, the Office of Student Conduct collaborated with offices that oversee New Student Orientation and Housing and Residence Life to offer education sessions, materials, and programming regarding Medical Amnesty.
- Seeing good turnout and engagement during Step Up Programming
- Social Host Committee was created and a trial run with select groups was effected

B. Weaknesses

- The committee along with the Office of Student Conduct recognized/presumed a low utilization of Medical Amnesty. As a result, we took a more aggressive approach to marketing the policy - ranging from having materials created to be hung in high-risk areas and residential spaces for a reminder of how to access help to the collaboration of the departments listed above to create plans of how to introduce and reiterate the policies to our first year students upon their entry into the college. We also used this data to inform trainings for fraternity and sorority life.
- Increased numbers in Student Organizations that are being found responsible for providing alcohol to minors.

VII. Recommendations

- Use programming funded through the PA It's On US grant as an opportunity to also provide students Drugs and Alcohol education.
- Continuation of working toward the gold standards set by the JED Foundation
- Implement Health and Counseling focused resources for Drugs and Alcohol
- Training for independent housing and social host gatherings

Muhlenberg College recognizes that the use of illicit drugs is a serious problem on college campuses. When a student uses illicit drugs, the College makes every effort through education and referrals to assist that person to gain the help that they might need to live a life free of drug dependencies. Muhlenberg recognizes that the use of illicit drugs can seriously affect an individual's health, personal relationships and their ability to function in a competitive academic environment. The College cannot tolerate behavior which is harmful to the individual; infringes upon the rights of others; or which the College deems detrimental to the welfare of an academic community. Consistent with its concern for the welfare of its students, moreover, the College will not tolerate the illegal distribution of drugs on campus. When the College becomes aware that students are using or distributing illegal drugs, the College reserves the right to contact those local, state and federal officials charged with enforcing state and federal drug laws.

Appendix D: Drug-Free Workplace Policy Statement

Drug-Free Workplace Policy Statement

Revised August 24, 2017

Effective March 18, 1989, the federal Drug-Free Workplace Act of 1988 required Muhlenberg College and other employers who contract with, or receive grants from, federal agencies to certify that certain requirements are met for providing a drug-free workplace.

Muhlenberg College complies with this act in the following ways:

Section I – General Policy Statement

The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited at Muhlenberg College. Any employee or student violating this rule will experience disciplinary action. The College reserves the right to contact both state and federal offices charged with enforcing state and federal laws.

Off-the-job illegal drug use which could adversely affect an employee's job performance or could jeopardize the safety of others may result in disciplinary action, up to and including termination of employment. Employees undergoing prescribed medical treatment with a legal drug that may impair job performance should report this treatment to the Vice President of Human Resources. In appropriate cases, certain job accommodations may be necessary for the safety of the employee, students, the public and fellow employees. Failure to disclose such

treatment where it may create a direct threat of harm may result in disciplinary action up to and including termination of employment. The use or possession of alcohol during the work day and reporting to work under the influence of alcohol are also violations of Muhlenberg College's policy.

Section II - Employee Testing

Employees injured on-the-job who require medical attention will be subject to post-accident drug and alcohol screening.

If there is reasonable suspicion, circumstances or employee behavior indicating alcohol or drug use, drug and/or alcohol testing of the employee may be required. Circumstances include direct observation of alcohol or other drug use and/or physical symptom of being under the influence; a pattern of abnormal conduct, incoherent mental state, or erratic behavior that is otherwise unexplained; arrest or conviction for a drug-related offense, or other actions or conduct that provide reasonable suspicion that the employee may be under the influence.

Section III – College Employees

Any employee violating this rule will experience disciplinary action which could include termination of employment.

One or more of the following sanctions will be imposed for violation of these rules:

- a. Required counseling and participation in a drug abuse assistance or rehabilitation program, the cost to be paid by the employee.
- b. Required counseling and suspension from work. Any subsequent violation will result in suspension from employment for a period to be determined at the time of suspension.
- c. Dismissal from employment.

As a condition of employment, employees must abide by the terms of these requirements and must report to the Vice President of Human Resources, no later than five days after the conviction, that he or she has been convicted or has pleaded guilty or nolo contendere (no contest) under a criminal drug statute for conduct in the workplace.

Appendix D: Drug-Free Workplace Policy Statement cont.

Student Health Services and Human Resources Office staff will conduct awareness programs to inform employees of the dangers of drug abuse, the College's drug free workplace policy, available drug counseling, rehabilitation and other employee referral programs, and the penalties/sanctions that may be imposed on employees for drug abuse violations.

The College will notify the appropriate government contracting or granting agency within 10 days after receiving notice of an employee's criminal drug statute conviction for conduct in the workplace. Within 30 days, an employee so convicted will be subjected to sanctions as stated above.

The College offers an Employee Assistance Program through the Director, Counseling Services. Additionally, the Director of Counseling/Substance Abuse Professional and the Vice President of Human Resources are prepared to confidentially handle referrals to appropriate programs for employees who seek assistance with drug and alcohol counseling and rehabilitation. Further, the health insurance plan offered by the College to full-time employees provides for the treatment of drug abuse in a participating substance abuse treatment facility.

Section IV – Students

A student who violates the general policy statement of Section I will experience disciplinary actions up to and including expulsion.

One of more of the following sanctions will be imposed for violation of these rules:

- a. Required counseling and participation in a drug assistance program or rehabilitation program, at the expense of the student.
- b. Disciplinary probation, suspension, or expulsion as determined under the Social Judicial System of the College and as outlined in the College Student Handbook.

Attention is called to the [Policy on Use of Drugs](#) in the Muhlenberg College Student Handbook.

Effective September, 1989, court judges are permitted to suspend a student's eligibility for federal aid for one year if the student is convicted once of drug possession. For subsequent convictions, eligibility may be denied for up to five years. By declaring themselves addicts and entering a long-term treatment program, students can lessen penalties. Students convicted of drug dealings are subject to more severe sanctions.

Appendix D: Drug-Free Workplace Policy Statement cont.

The Department of Education requires student recipients of Pell grants to sign drug-free certifications.

Student Health Services and Dean of Students Staff periodically conduct drug free awareness programs to inform students of the dangers of drug abuse, and provide information about the College's drug free workplace policy, any available drug counseling, rehabilitation, and other assistance programs, and the penalties/sanctions that may be imposed on students for drug abuse violations.

The College will notify the appropriate government contracting or granting agency within 10 days after receiving notice of a student's criminal drug statute conviction for conduct on campus. Within 30 days, a student so convicted will be subject to sanctions as stated above.

The College does not sponsor a formal assistance program for students. However, the Dean of Students and the Director of Counseling/Substance Abuse Professional are prepared to confidentially refer students to outside programs as they seek assistance with drug counseling and rehabilitation.
